Dear Sir or Madame

We have enhanced Linguaskill to become a fully Cambridge-certificated English exam.

Linguaskill is our online and on-demand multi-level test offering organisations a quick and convenient way to test English levels of their [employees/potential employees]/[students/future students].

Since its launch as a four skills test in 2019, *Linguaskill* has grown to become a popular English language testing solution for leading universities and employers around the world. We are now upgrading the test to ensure that it continues to meet the needs of our customers, whilst providing an enhanced experience for candidates.

Organisations that continue to recognise *Linguaskill* include:

- **Spain** – Conferencia de Rectores de las Universidades Españolas (CRUE) recommends *Linguaskill* to their association of 76 private and public universities.

- **Thailand** – The Teachers Council for Thailand recognises *Linguaskill* for accelerated professional development for qualified teachers.

- **Türkiye** – OSYM is the Measuring, Selection and Placement Centre responsible for organising examinations, student selection and placement in Türkiye. They officially recognise *Linguaskill* as equivalent to their Local National Exams for admissions.

- **United Arab Emirates** – Knowledge and Human Development Authority (KHDA) recommends *Linguaskill* to private education institutions in Dubai.

Comparing Linguaskill and new certificated Linguaskill
We have used the same expertise and knowledge behind *Linguaskill* to create the new enhanced version.

The main enhancements are:

Where your world grows

- **Higher security** - lockdown browser, test day photos, AI remote proctoring with every test
- **Higher testing range** – B1 (140 CES) - C2 (210 CES)
- **Higher stakes use cases** – university admissions, graduation, recruitment, job retention, promotion
- **More academic content** in the General version of the test, visible across the four language skills
- **More practice materials** – Linguaskill Online Tutor Introduction Course, Linguaskill Trainer (Practice test book). More courses coming in 2026.

What's different?

Test delivery	- State of the art test portal used for all Cambridge multi-level tests. - Quicker results return: 3-5 days (for sessions up to 500 candidates)

	- Greatly improved user experience. - Ability to link tests to individual candidates, building up a history of test performance over time. - Provided from cloud architecture, connectivity and speed are greatly improved.
Enhanced reporting	Each test report form includes: - a Cambridge English Scale score (used by all Cambridge English Qualifications) - a CEFR level - a graphical representation of results, allowing for a granular representation of a candidate's results - bespoke 'Can do' statements reflecting the exact level of each skill - results for more than one test module can appear on the same test report and - additional security and tracking features to improve authentication.

Results Verification

Candidates can share their results with a range of organisations directly from their *Linguaskill* account via our Results Verification Service. Institutions will receive an image of the candidate together with their results, when they were taken and the mode (in-centre or via remote invigilation).

A2 reporting update

Linguaskill does not currently test at A2, however we are working towards further enhancements which could allow us to test at A2 in the future.

Yours Sincerely
